LONGMEADOW, MASS.

SATISFACTION GUARANTEED

QUALITY OF BULBS: You will not need to treat any of the bulbs that are raised here. They are guaranteed healthy; true to name and are large, firm, beautiful stock that I am proud of and ready to place in comparison with any bulbs grown. I do not send out a bulb that I would not be satisfied with myself. At digging time they are carefully handled. The tops cut off, not torn or broken; properly cured and properly stored. Much is said about "high crown" bulbs. That is all right as far as it goes but there are many varieties that absolutely will not make high crowns. We guarantee that all of our bulbs are from young stocks that have been previously treated to keep them free from disease, and grown RIGHT.

PRICES: You can find all kinds of prices for the same variety. The tendency has been for many to sell at "cut prices" which has brought the level much below where it should be, but I have endeavored to adjust this season's prices to conform generally with those of reliable growers and commensurate with high quality stock. Remember my bulbs are guaranteed.

ORDER EARLY: This is an oft repeated phrase, but I say it again, as many are disappointed each season by waiting too long. I also repeat, get your neighbors and friends to put in their orders with yours and take advantage of the 100 rate and extras. Have you had your present collection for quite a time? Try a new lot this year and include some of the newer things.

TERMS AND EXTRAS: All orders should be accompanied with cash. Twenty-five per cent. deposit will hold order until March 15th. No orders filled for less than \$1.00. All orders of \$5.00 up will be prepaid. Orders less than that amount add 25 cents for postage. Extras is another item which has no definite bounds. I have always made it a point to add some extra bulbs of good variety, and be generous, but I could never see the reason of putting 15 to 18 bulbs when 12 were ordered or 150 when 100 were called for. The grocer does not give you 15 eggs for a dozen or 18 bananas when you call for 12. However, I shall continue to do my part in making your order SATISFACTORY.

VARIETIES: You will find a number of varieties in previous lists dropped and new ones added. My aim is to offer the best possible of the different color schedules and I am influenced not by new heralded high priced varieties but by the real merit of the variety and those best liked by visitors; some of the old favorites and those that are dependable. At the beginning of the list is a selection of the best of the later introductions. Some of them are gems of the first degree. All worthy of trial. No list is complete today that does not contain varieties from different sections. Europe (Holland, Germany, Scotland, France), Australia, New Zealand, have added excellent varieties to the list that surpass in their color classes those of our own country. You miss many of the best things unless you have varieties from different introducers.

The varieties marked with a * are especially good and highly recommended.

If uncertain as to what you wish just send me the amount you wish to invest and I will send you a collection that I am positive will please. I do this every year with great success.

Large 1¼" up. Medium ¾" to 1¼". Small ½" to ¾".

Large bulbs give best bloom. Medium bulbs will all bloom. Some small sizes will bloom. Sizes will run large.

Single bulbs at one-tenth of ten rate. Twenty-five bulbs at the hundred rate. Bulblet prices on request.

Longmeadow Mixture: More popular than ever. Never enough to last through a season. Made up of named varieties. I will put this beside any mixture on the market and say it cannot be surpassed. 75 cents per dozen. \$5.00 per 100.

Special Mixture: I make this up with color selections as one may wish. It is all high class and if sold under name would cost \$15.00 or more. Large bulbs \$10.00 per 100. Medium bulbs \$5.00 per 100.

Extra Special: This is of the newer varieties and is a grand array. Large bulbs \$25.00 per 100. 25 bulbs at the hundred rate.

"The bulbs purchased from you have bloomed and more than met my large expectations. The entire lot have given great pleasure and perfect satisfaction."

"I think it only right despite the dry season to let you know that I had gorgeous blooms from the bulbs purchased from you."

"Send me you 1930 catalog as soon as it is out. We had our usual splendid luck with your bulbs. We bought several places for comparison and test but we found none to equal yours."

"I now write to thank you for the most surprising parcel I have ever received from America or anywhere else for that matter. I have always had liberal treatment but no parcel ever astonished me as yours did. Every corm is doing finely." From NEW ZEALAND.
